Collierville, Fayette County, Tennessee

Dear Mr. Swanner:

The division received a request in October 2013 to modify the permit for the discharge of process tank washwater. The facility requested in January to put the public notice of the modified permit on hold. Since the facility does not wish to proceed with the modification at this time, the division will inactivate the modification request. If the facility chooses to move forward with the permit modification at a latter date, it will need to request in writing to proceed with the permit modification. If you have questions, please contact the Memphis Environmental Field Office at 1-888-891-TDEC; or, at this office, please contact Miss Julie Harse at (615) 532-0682 or by E-mail at Julie.Harse@tn.gov.

Sincerely,

Vojin Janjic
Manager, Water-Based Systems
